The winner of this year's Fill A Backpack Corporate Challenge is Louisville based GHX Corporation. Through a combination of donations and the collection of backpacks and individual pieces of school supplies, GHX is helping more than 1,250 children start the school year with the tools they need to succeed. This is GHX's second year winning the corporate challenge. Guardian Storage was the first place winner for the most points by number of employees based on items collected and total donations.

Through the efforts of the corporate challenge, individual drives and your generous donations, A Precious Child **exceeded** this year's goal by providing **13,333** children with backpacks and school supplies, preparing children in need to be ready to learn on their first day of school!

Representatives from GHX, Alliance Data, Medtronic and volunteers from the Markham and Johnson Families are pictured below at the August 11th Distribution Day where more than 300 children were fitted with new backpacks and school supplies.

Donor Spotlight - Brad & Amy Richardson

As owners of Summit Medical Care Center (formerly Summit Chiropractic), I can't imagine our professional and personal lives without knowing Carina and Sam Martin and the team at A Precious Child. My husband, Dr. Brad Richardson, and I met Carina and her family in 2008 when they needed some chiropractic care. It was an instant connection – neighbors, patients, and soon to be friends. Carina passionately asked me to lunch one day, "Amy, I'd love to talk to you about an idea I have helping children in need." I of course agreed, and the rest became history. By 2008, we offered Carina and A Precious Child a small, modest space in the basement of our clinic at 54 Garden Center in Broomfield. They made themselves at home in a dark, cool 500 square foot basement of a bustling chiropractic clinic where they dedicated themselves to serving the community one family at a time. By 2010 they outgrew the space. A Precious Child continues to grow and provide aid to countless children and families.

Brad and I and our staff have always been supporters of the luncheons, back pack drives, and holiday toy drives for their organization. For our 20 years in business, our passion and calling are all focused on patient care—helping individuals obtain health and avoid illness and pain without the use of drugs or surgery. We treat each patient like family and feel that being integral in A Precious Child's "birth" really speaks to our purpose and holistic mission statement of helping those hurting or who need balance and assistance. We are honored to be part of A Precious Child family, and know we'll be teammates with them for years to come.
