

OFFSITE & VIRTUAL VOLUNTEER PROJECTS

A Precious Child offers a variety of different offsite and virtual volunteer opportunities to make service projects accessible for you and your team! We fully facilitate and manage each project from start to finish so your group can learn about our mission, get hands-on with the work we do and understand the impact you will have made.

We recommend dedicating **1-2 hours** of time to any project with at least 10 participants. However, we can adjust to accommodate the timing and group size of your team; the value per participant would be adjusted accordingly. Your team's investment will cover the cost of all in-kind goods needed to fund the project, transportation and staffing, all of which are tax-deductible.
